## CRISIS APPROACHING, STRIVING TO WILSON DETERMINED REJECTION WILL END NEGOTIATION

Huerta Has Until Tuesday Noon  
to Accept Wilson's Plan.

### PRESIDENT FINISHES MESSAGE

Should Huerta Remain Obdurate, Wilson Will Give the Joint Session of Senate and House All His Information On the Mexican Situation and His Own Views On the Duties of the United States.

Washington, Aug. 25.—The Mexican situation as viewed by United States officials is at its crisis. They believe that unless President Huerta accepts the American mediation proposals involving his retirement from office, the peace negotiations will be terminated. A high official of the administration put it this way: "Provisional President Huerta has until tomorrow to accept our plan."

Unless Huerta does give in to the American demands before President Wilson begins his address to congress Tuesday noon, there is now little hope among officials that he will yield at all or that the present revolution in the southern republic will be settled peacefully through the good offices of the United States.

Should Huerta maintain his policy of flatly demanding recognition by the United States and flatly refusing any suggestion not predicated upon this, President Wilson will give to the joint session of the house and senate all the information on the situation and his own views as to the duties which devolve upon the United States.

President Wilson has completed and discussed with Secretary of State Bryan the first draft of this address. One statement contained in the address will be the flat and final announcement that the United States will not under any circumstances recognize the Huerta government. The president is firmly resolved on this much of his policy for dealing with Mexico in the event that the mediation plan is not accepted. This announcement will be the basis of what ever policy is evolved for the United States after Tuesday.

There is little doubt of the reception that this announcement would receive at the hands of congress. Members of both houses are themselves convinced of the wisdom of refusing to recognize Mexico until the conditions are greatly improved and a president has been chosen by a constitutional election.

It is the president's intention to hold a conference at the White House this evening with the senate and house committees on foreign affairs. At this conference his address will be discussed in detail and suggestions from members of the committee as to the proper policy to be adopted will be considered.

## STRIVING TO HOLD HARRY AGAINST ALL KIDNAPERS

### THAW'S JAILED MAKES THREAT

Murderer's Cell For Harry If He Attempts to Escape.

### HEARS OF PLOT TO KIDNAP THAW

Prisoner Likely To Be Turned Over to the Immigration Authorities After the Hearing Wednesday—His Attorneys to Fight Deportation Order to the Last—Will Stay in Canada Long as Possible.

Shawnee-on-the-Creek, Aug. 25.—There remains no doubt as to the legal course that Harry K. Thaw is going to follow. The habeas corpus writ will be argued Wednesday, and, according to universal opinion, he will be delivered over to the immigration authorities. An inquiry board of the immigration department will decide whether he is guilty of the charge that he is an escaped lunatic and entered Canada by stealth.

Should that board decide to deport him, his attorney will appeal to the minister of the interior. This appeal would probably result in a prolonged investigation into his claims for the right of freedom in Canada.

In the end, if he is put across the border in any state outside of New York, there will follow the fight against extradition to New York, but the immigration inquiry will probably take time. There is only the remote chance that Thaw will be shipped to Vermont on short notice. It is to prevent just this that some of the best lawyers in Canada have been retained for him. Thaw has outlined his case and has a clear grip of it. He has instructed his lawyers to keep him in Canada as long as possible and to obtain freedom for him here if they can. He is convinced that public opinion is going to be a powerful factor in his fate whether in Vermont or Canada, and has set out to create sympathy for himself and convey the impression that he has been the victim of his enemies.

He was much concerned lest the people should think he is not personally in charge of his case.

W. A. Blakeley, district attorney of Pittsburg, who came here at the request of Thaw and an intimate friend of the family, said that if Thaw does not stop talking he will "talk himself back to Matteawan."

Although Blakeley didn't come here as an attorney for Thaw, he was in conference for two hours with W. K. McKeon, Colonel H. A. Frazer and Governor Stone of Pennsylvania. After the conference all five men called on Thaw in the hospital ward and remained with him for about an hour.

Governor Stone declined to say whether he thought of Thaw's case. It is known that he is here to make himself acquainted with the Canadian end of the fight preparatory to extradition proceedings in Newport, Vt., the place where Thaw will probably be sent if deported.

Thaw is still worried because the note he sent to a press association telling it to warn papers throughout the country not to call him a fugitive from justice had been lost in transit.

J. H. Ig. Force, the jail governor, threatened to lock Thaw up in the murderers' cell if he obtains even the slightest confirmation of rumors that Thaw would attempt to escape and that there was a plot to kidnap him.

## Frank B. Kellogg Presides At Annual Meeting of the American Bar Association in Montreal

Montreal, Aug. 25.—Frank B. Kellogg, president of the American Bar association, will preside at the three day meet of the organization to be held in this city September 1-3. He will open the annual conference with an address at Royal Victoria college assembly hall. The meeting this year will have particular significance because of the international legal tangle over the Panama canal tolls. It is held that many American lawyers side with Great Britain in her demand that the Hay-Pauncefote treaty be upheld. Lord High Chancellor Haldane of England will be the most notable guest and will speak. It is taken for granted that he will refer to international relations.

## NURSE IS HELD FOR 4000 MURDERS IN PHILADELPHIA

### CHARGES AGAINST NURSE

Performed Four Thousand Illegal Operations, Says a Detective.

Philadelphia, Aug. 25.—May Simmons, a nurse, who maintained apartments in four houses here, was accused of having performed 4,000 illegal operations during the last four years. She has confessed to many operations. "A thousand operations a year" was her usual record, according to witnesses uncovered by Coroner's Detective Frank Paul. The woman is under arrest, charged with the death of Meredith A. Dukes, daughter of John L. Dukes of Selbyville, Md.

In the furnaces of the four houses the Simmons woman is alleged to have burned a thousand infants. The others she disposed of in sewers, according to Paul.

Although Blakeley didn't come here as an attorney for Thaw, he was in conference for two hours with W. K. McKeon, Colonel H. A. Frazer and Governor Stone of Pennsylvania. After the conference all five men called on Thaw in the hospital ward and remained with him for about an hour.

Governor Stone declined to say whether he thought of Thaw's case.

## WHAT BANKERS WANT

Chicago, Aug. 25.—Leading bankers of the country at their conference here agreed on a number of important amendments to the Owen-Glass currency bill, now pending in congress, and appointed a committee of seven members to go to Washington and endeavor to have the changes incorporated in the measure. The bankers seek among other things one central repository. They oppose the plan of issuing currency bank notes by the government.

Woman Faces Serious Charge.

Lima, O., Aug. 25.—Following the receipt of a story told to the police by Bessie Giglin, 19, who was taken from an alleged resort run by the woman, Mrs. Myrtle Backstein, 41, of Kenton, was arrested here, charged with trafficking in girls. The girl says the Backstein woman brought her here from Kenton.

## WORCESTER CLAIMS THAT SLAVERY IS PREVALENT

### HUMAN BEINGS BOUGHT AND SOLD

Chattel Slavery and Peonage Flourish in Philippines.

### DEAN WORCESTER'S REPORT

Commissioner Describes in Detail the Different Forms of Traffic in Children and Adults, and Declares It Impossible to Suppress the Business Under the Present Laws—Challenges Delegate's Claim.

Washington, Aug. 25.—Not only peonage but chattel slavery are flourishing throughout the Philippine Islands, according to a special report made by Commissioner Dean C. Worcester, secretary of the interior, to the governor general. The report is the outcome of a request for information made to the war department by the Senate on May 1.

Describing peonage as the condition of a debtor held by his creditor in a form of involuntary servitude and slavery as a condition in which a human being is held as a chattel, fed and clothed, but not paid, Mr. Worcester describes in great detail the different forms of traffic in human beings, the impossibility of suppressing the business under the present laws and the futile efforts at new legislation which has been made from time to time since the American occupation of the islands.

"It has been and still is a common thing for Filipinos living in a territory adjacent to that inhabited by Negritos, Tagalans, Eongots or Ifugao," says the report. "To obtain children by capture or purchase and to hold them as slaves, selling them to others whenever it proves financially advantageous to do so. Such unfortunate are clearly chattel slaves and often are repeatedly sold and resold." "It is possible," says the report, "that Senor Quezon, the Philippine delegate in congress, who denies the existence of slavery, is so ignorant of conditions there as to be unaware of the conditions I have just described, and of the fact that many Moros of that place hold slaves until compelled to give them up by the provincial government."

## TOUGH NEW YORKERS IMITATE COWBOYS

### SHOOT UP A DANCE

Toughs Fire a Dozen Shots into Crowded Hall, Wounding Several.

New York, Aug. 25.—William O'Shaughnessy was fatally wounded, another man shot in the thigh and a girl and several other persons slightly wounded when members of a band of rowdies fired a dozen shots into a crowded dance hall. A hundred young men and women were thrown into a panic. Two men were arrested later and charged with homicide. The dance was in progress when a black touring car drew up at the curb and two men got out and opened the front door. At the same instant they drew revolvers and began shooting into the room.

Robbed by Hotel Thief.

Lima, O., Aug. 25.—Rose Pastor Stokes, wife of James C. Stokes, a New York millionaire, was strangled in Lima without a penny in her pocket. A sneak thief entered her room at the Lima House and took her purse, containing nearly \$300. She wired her husband for funds.

# PHYSICAL CONDITION OF THE D. T. & I. RAILROAD IS WORST IN ITS HISTORY

According to Reports from Those Who Suffer Loss Through Delayed Shipments Because Much Motive Power of the Road is Almost Useless.

**FORTY-FIVE LOADED CARS TIED UP IN THIS CITY TODAY**

Prospects for Relief are Gloomy and Long Suffering Public Must "Grin and Bear" Sufferings Indefinitely—Elevators Tied Up and Business Almost at a Standstill Along the Road.

Probably never before in its history has the D. T. & I. railroad been in a more hopeless condition than it has for the past few weeks and is now. Its physical condition is said to compare favorably with that of a patient who has long suffered from typhoid, and the prospects of betterment are regarded as remote.

Since the alleged sale of the road it has been going down hill very rapidly, until it has for some little time been totally unable to take care of the business that has been accumulating. Some of the employees are still waiting on the last half of July pay, and a general howl of dissatisfaction has arisen from shippers and from those receiving goods all along the line.

Monday morning the number of cars of outgoing freight which blocked the local sidings and most of which have been here for days, was placed at 45, and it was not known when the congestion would be cleared up. It is the same way at nearly every shipping point, and the congestion is not due to an over-abundance of business, it is claimed, but a great lack of motive power with which to move the freight.

All freight schedules have been knocked out of existence, and most of the regular freights are now very irregular.

The Dahl-Millikan Company, the heaviest local shipper, has been trying in every way to get shipments over the road, but it has required

the receivership has not been lifted.

### BOWDLE JOINS RANKS OF INSURGENTS WHO FIGHT CURRENCY BILL

Representative BOWDLE

Washington, Aug. 25.—Lined up against the administration currency measure were many insurgent Democrats, including Representative Stanley E. Bowdle of Ohio, who defeated Nicholas Longworth for re-election. Bowdle joined the faction who fought the present shape of the bill, claiming that the sectional reserve bank feature should be amended. It was considered likely that if the bill was recommitted to the committee on banking and finance it might not be brought out again at the special session, although President Wilson was said to be prepared to hold the congress together till the regular session in December if necessary in order to get a currency bill passed.

### WILL MEET AND DISCUSS FERTILIZER

At 10:00 o'clock Monday morning, September 1st, a Fertilizer meeting will be held on the farm of R. S. Ramsay near Bloomingburg. Prof. A. G. McCall, of the College of Agriculture will lead the discussion.

"Fertilize the soil not the crop" is the slogan of the soil fertility experts at the College of Agriculture. They say it is a mistake to talk about "corn fertilizer" and "wheat fertilizer." Experiments show that an application of whatever element is lacking in the soil will increase the yield of all the crops grown. The important thing they claim, is for each farmer to find out what his soil lacks. The object of this meeting will be to find out what the soils of this vicinity lack most and what is the cheapest way of supplying this lack. All are urged to attend and add their experience to the discussion.

Sometimes the symptoms of kidney and bladder trouble are so plain no one can mistake them. Backache, weak and lame back with soreness over the kidneys, sharp pains, rheumatism, dull headache, and disturbed sleep, are all indications of a trouble that Foley Kidney Pills will relieve quickly and permanently. Try them. Blackmer & Tanquary.

### MELONS SCARCE PRICE IS HIGH

The price of water melons this year is higher than usual, and there is a good prospect of the price still soaring unless the local or home supply is larger than believed. Melons that would have brought 20c to 30c last year at this time are now selling for 35c to 50c.

For several years the John Noble melons, of Carlisle, Ind., have been selling in the local markets, and are selling here at the present time.

However, Friday Mr. Noble received word from a commission firm offering him \$168 per car load, f. o. b. Carlisle, and he left to investigate and probably dispose of his entire crop at that price, as it is better than he can secure by selling under the old plan.

There is a great scarcity of melons everywhere, it is claimed, and the price may go higher instead of lower.

## HELD FOR MURDER OF COLUMBUS MAN

Wheeler George, formerly of This City, Confesses to Striking Blow Which Ended in Death of Man Who Had Assaulted Woman in Columbus Saloon.

Wheeler George, colored, formerly of this city, where he has a bad record, is being held in Columbus for the murder of Emory Diett, white, aged 40 years, whom he is alleged to have struck after the man had tried to remove a watch from a woman who proved to be Mrs. Diett.

The assault occurred on West Swan street late Saturday night, and the man died in the Protestant hospital from a concussion of the brain. George was arrested later in the night for being intoxicated, and later released. However, he was again arrested charged with the murder of Diett, and confessed to the crime.

According to the woman's story she has had trouble with her husband and was in the act of going into a saloon when he attacked her and tried to secure her watch. She screamed for help, and George was among the first to step from the saloon.

The remainder of the story is told by Columbus papers as follows:

"According to George's story, he was struck in the face by Diett. They ran down Wall alley to the rear of the residence of Mrs. Bessie Thompson, colored, 19 West Swan street. George overtook Diett, and struck him on the jaw so forcibly that he fell unconscious to the ground. Whether consciousness was regained resulted directly from the blow George delivered or from his head hitting the ground when he fell, is not known.

Mrs. Thompson and Mrs. Belle Galimore, 23 West Swan street, witnessed the fight from the rear windows of their houses. Mrs. Thompson called the police ambulance, in which Diett was taken to Protestant hospital.

Mrs. Diett recovered her watch and went to the home of her sister. It was not until the detectives found her yesterday afternoon that she knew there had been a murder, she declared.

George says that after the battle he went back to Gahagan's saloon for more drinks. He washed his bloody hands in the restaurant connected with the saloon. Later in the evening, he was picked up in a street where he was found by Officer Kauffman. He was sent to the city prison for safekeeping. After daybreak yesterday morning he was released, the police not knowing at that time that he was connected with the murder.

Detectives James and Mahoney went to George's residence in Sullivan avenue at 6:30 last evening and arrested him. He denied positively that he had been implicated in the fight until convinced by the police that they had the evidence. He then confessed and told a seemingly straight story. He is a hodcarrier and unmarried.

### ROAD WORKING NOW UNDER WAY

Road working is now occupying the attention of a large number of Fayette county citizens, and hundreds of teams over the county will be hauling gravel for the next several days.

Supervisors all over the county are busy looking after their respective districts. So-called "mud roads" are again receiving liberal attention this year, and many of the main roads will receive a liberal supply of gravel and crushed stone.

The work this year is not expected to keep step with the deterioration of the pikes, however, and next winter during muddy times they will probably be cut through again.

### THEATRICAL ATTRACTION

The scenery and stage settings used in John W. Vogel's Big City Minstrels, which comes to the Empire Opera House on Wednesday, August 27th is said to be the most elaborate and expensive ever used for a similar purpose; the setting is called the Radium Palace, a befitting title, because of the appropriate costumes, and the numerous and powerful calcium and electrical effects used thereon. This is the only setting of the kind in use by a minstrel organization as the cost of same prohibits the average manager from investing the amount of capital required.

## Will Be of Great Good

Very little time was wasted by the jury in the criminal court at Sacramento, California, in arriving at a verdict of guilty in the case of the Commonwealth of California against Maury J. Diggs.

The defendant, who was jointly indicted with Drew Camenetti for violating the federal laws, made a miserably weak defense before the jury. Just such a defense as might have been expected from a man guilty of a crime such as was charged against Diggs.

The promptness with which the jury disposed of and pushed aside his shadowy defense, in refusing to accord to it even the dignity of a long consideration, has done much to raise the federal court of California in public esteem, justify the insistence of the district attorney's office that the cases against Diggs and Camenetti be brought to trial promptly in response to public demand.

The people of Sacramento were much wrought up over the prosecutions and the delays in bringing the cases to trial, and had about exhausted the public patience when the spectacular resignation of District Attorney McNab occurred.

The manner in which the people presented their case against Diggs—the miserable collapse of all pretense of a respectable defense and the promptness with which the verdict of guilty came, all will be strong proof of the efficiency of the law and the purpose of the officials.

The result in the Diggs' case will strengthen the force of the law as a detering influence and after all that is the greatest beneficial effect to be hoped for in any law.

The verdict meets with overwhelming public approval and will result in great good.

If Profit  
System  
Were  
Abolished

By J. ADAM BEDE,  
Former Congressman From  
Minnesota

ALL economic evolution tends toward socialism. The initiative, referendum and the recall are three of the principal demands of the Socialists, and the adoption of these policies in so many places is a VINDICATION OF THE DOCTRINES OF SOCIALISM.

The adoption of these three ideas proves that socialism is coming, and we may as well get ready for it. NOTHING CAN PREVENT THE ULTIMATE TRIUMPH OF SOCIALISM.

Socialism is the doctrine of the working class. It is the result of capitalism. Capitalism is the FATHER OF SOCIALISM. Capitalism means a continuation of the profit system, under which the capitalist exploits the workingman.

Time was when the workingman owned the tools with which he worked. Today he DOES NOT OWN THE TOOLS. They are owned by the capitalist for whom he works. The capitalist tells the workingman WHEN HE SHALL OR SHALL NOT WORK, when he may or may not work.

SOCIALISM PROPOSES THAT THE WORKMAN SHALL OWN HIS TOOLS, THAT EVERY PERSON SHALL HAVE THE RIGHT TO WORK AND THAT EVERY PERSON SHALL OWN WHAT HE PRODUCES AND NOTHING MORE. THE PROFIT SYSTEM WOULD BE ABOLISHED.

That would give them collective ownership. Why don't you do it? And why do the ten million workingmen keep their money on deposit in the savings banks? FOR PROFIT, of course.

## Poetry For Today

## "A GOOD SPORT."

What! Are the odds all against you?  
Are you losing, bout after bout?  
The struggle has not recompensed  
you;  
For it's not your name that they  
shout,  
And it's not your deeds they report!  
Well—and what of it? Be a good  
sport.

Instead of the prize, or the paean,  
There's nothing for you but rout,  
The verdict all men can agree on,  
"Poor fellow—he's down, and  
out!"

Your favor no longer they court  
Well—and what of it? Be a good  
sport.

What were those words of the Ro-  
man—

Of Cato who kept his heart stout,  
Whose spirit knocked under to no  
man?—

"The gods for the winner, no  
doubt!"

But Cato for him who falls short?  
Be good to yourself—and be a good  
sport.

Perchance, if Fortune had found you,  
Some other had gone without.

Laugh when they buffet and flout,  
Do they make you their plaything?

Retort,  
"Send what ye will—I will be a good  
sport!"

## Hartman Theater

During State Fair week Columbus will be crowded with visitors and many of these will wish to take advantage of the opportunity to spend an afternoon or evening at the Hartman theatre.

For this week the management is bringing to Columbus a musical show made up of some of the best known stars in the country, together with a large singing and dancing chorus, and the most remarkable thing about this show is that it will play at dollar prices. It is the particular hobby of the producer of "The Candy Shop" to play a good show at popular prices—he believes it can be done and is going to prove it with this production. A list of the principals who comprise the cast will show the reader that the attraction is bound to be superior to many for which he has paid two dollars. They are William Rock and Maude Fulton, Al Shean, Tom Waters, Will Philbrick, Franklin Farnum, Oscar Ragland, Andrew Branigan and Robert Nolan, Gene Luneska, Catherine Hayes, Hazel Cox, Bessie Franklyn, Cecilia Nevasio, Kitti Doner, Mazzie Kimball, Peggy Lunden.

Thus it will be seen that a trip to Columbus without a visit to "The Candy Shop" at the Hartman Theatre will be a waste of time.

## INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

One million bibles have been sent to China in the last six months, according to a report made by the China agency of the American Bible Society. Arrangements have been made to send another million before the end of the year.

The secretary of the navy has ordered severe punishment of the enlisted men who participated in the recent riots in Seattle, in which the quarters of the I. W. W. were burned and the Salvation army rooms wrecked in the belief that they belonged to the former organization. Secretary Daniels said that while the men were subjected to unprovoked assault and violent language, there was no justification for retaliation.

A German firm has offered to the Chinese government of Yunnan province \$15,000,000 in gold in exchange for the right to build a railroad throughout the province and to have a monopoly for 20 years in selling mining and other machinery.

An example of Turkish cruelty without the usual long roll of killed and maimed comes from a village in Armenia. At the time when the silk worms were nearly ready to form cocoons and therefore needed most food the governor ordered the town surrounded for several days and compelled all the inhabitants to remain within their homes for the avowed object of arresting some Moslem robbers. As a consequence of this order the Armenians could not get mulberry leaves to feed their worms and therefore almost all of these perished just as they were about to form cocoons. As the silk industry is the principal occupation you can imagine their loss.

Tourists are being turned away from the White House which is closed for repairs. The east entrance through which tourists are admitted, is entirely closed, while the whole ground floor of the building is undergoing repairs and redecorations. The workmen are moving the scaffolding continually and it has become necessary to shut out visitors entirely.

Who has not heard of Noah Webster's Blue Back Speller? asks the Bellman. It was, of course, not the first American speller by any means. "New Guide to the English Tongue," published in 1740 and Fennings' Spelling Book, issued in 1755 had large sales up to 1800, and doubtless aided Webster in the making of this masterpiece. These earlier books contained some astonishing information. Fennings for example, told the exact dates of the most remarkable occurrences in history, such as the creation of the world, 4047 B. C., the coming of Noah's flood, 2359 B. C., and the falling of the walls of Jericho, 1544 B. C. None of these earlier spellers, however, in spite of their helpful information could approach the Blue Back in national popularity. The earliest title of the little classic was decidedly imposing: "The First Part of the Grammatical Institute of the English Language," and in latter days gained for the great Noah the nickname, Dr. Grammatical Institute. It would be impossible to compute how much Webster made from this one book. He is known to have sold several cities the right to print and sell for \$3000 each, while one publisher alone paid \$40,000 cash for a 14 year contract.

## MORE WELL-KNOWN CITIZENS MAKE STATEMENT OF VIEWS

Councilman F. M. Rothrock Favors Present Form of Municipal Government With "Slow But Sure" Methods.

H. D. CHAFFIN ENTHUSIASTIC BELIEVER IN CHARTER FORM.

Believes Charter Form Would Bring

People in Closer Touch With Municipal Affairs—Mr. Rothrock Believes City is Moving Forward in Good Condition and That No Change is Required.

Two more well-known citizens have expressed themselves on the question of choosing a commission to frame a charter. They are Councilman F. M. Rothrock, who is inclined to look with disfavor upon the proposed new method of municipal government for Washington, and Mr. H. D. Chaffin, former County Auditor, who is very enthusiastic over the proposed change to government by a charter.

Mr. Rothrock favors the present form of government over the new form proposed, believing that the "red tape" method of conducting business is the "slow and safe way" and that city is doing well under the present system of municipal control.

Mr. Chaffin favors the abolishment of the present form and the adoption of the new because he believes the charter plan will be much more satisfactory to the citizens in general.

Mr. Rothrock has contributed the following expression of his views on the proposed change:

**F. M. Rothrock.** Why should we have commission form of government? The main reason assigned in the interviews I have read is the elimination of "red tape" and a change for "something better," more expedient. Some of the people wanted something different written into the constitution of the State of Ohio, less "red tape," etc. They got it. Are the manufacturers, business men and farmers satisfied with the change? Not by a long shot. They are paying more taxes, and getting less for their money than any time

## TOURING CAR STRIKES CHILD

A touring car passing along Court street Monday morning nearly crushed the life out of one of the Syrian children who have been in the habit of playing about the street corner.

The auto was going at good speed when the child, George Kahalley, darted across the street in front of the machine and was knocked down. Realizing the danger that threatened the child, the driver applied the emergency brake and brought his machine to a stop with the child lying in front of the wheels.

It was at first feared the youngster was badly hurt, but after a short time it was playing about as if nothing had occurred.

## THOUSANDS VIEWING SPIRITED HARNESS RACING

THE amusement and entertainment program of the coming Ohio State Fair will be most elaborate. Twelve high-class circus acts will give a daily free performance. Great care has been exercised in the selection of these acts. The world's best have been engaged. Band concerts by famous organizations will entertain patrons both day and night. Each afternoon the race course will be the battle ground of fast steppers. Three races are carded each day—Sept. 1, 2, 3, 4, 5. The program consists of eight pacing and seven trotting events. \$11,000 is offered in purses. Sport lovers will be delightfully entertained. The track is in superb condition and records are sure to be shattered. The entry list contains the names of animals famous in the turf world. Each race will be hotly contested.

The Exposition will be open both day and night. The leading feature of the night program will be the free presentation of Pain's grandest spectacle, "Last Days of Pompeii." Three hundred and fifty performers are in the cast. Four acres of scenery are required. The eruption of Vesuvius destroying the city is most vividly portrayed. The scenic effects are marvelous. Following each presentation of this grand spectacle a \$5,000 program of Pain's Manhattan Beach Fireworks will be staged. The reputation of Pain as America's pyrotechnician is so well known that visitors are assured a fireworks display beyond compare. The Exposition grounds will be brilliantly illuminated. Each of the exhibit buildings will be open for night inspection. Steam and interurban railways will maintain special night schedules during the continuance of the Exposition. Visitors will thus be afforded opportunity of witnessing the elaborate night program and return home the same evening.

The big one-cent parcel post stamps so long a "drug on the market," are now very much in demand since the order permitting their use became effective, and they are used by concern mailing advertising matter so that the circulars will not be cast into the waste basket without opening, as the case now is with letters bearing one cent stamps of the old style.

Senders of post cards are also demanding the big stamps instead of the old style green ones.

## NAMES TRUMPED UP FOR PETITIONS

### VINCENT ADMITS FRAUDS

Thousands of Names On Referendum Petitions Manufactured, He Says.

Columbus, O., Aug. 25.—Walter B. Vincent of Cincinnati agent for the Ohio Equity association, told Secretary of State Graves and Attorney General Hogan how thousands of names and scores of petitions for a referendum on the workmen's compensation act were manufactured and delivered at the capitol. He declared that he and Charles Kibler, his employer, had helped to run about 40 petitions through a notary public mill in this city. The solicitors were armed with two different petitions on the workmen's compensation act, the witness said, the first being a demand for a submission of the Green law and the second being an initiative petition for the submission of a proposed law giving insurance companies the right to compete for business against the state. To save time while forging signatures, Vincent said, a sheet of carbon was placed between two petitions and one signature was thus duplicated and made to serve on both papers.
